#### Notes

- The condensed audited financial statements have been extracted from the audited financial statements for the year ended June 30, 2017, which have been prepared in accordance with International Financial Reporting Standards (IFRS).
- The condensed audited financial statements have been prepared on the basis of accounting policies set out in the statutory financial statements of the group for the year ended June 30, 2017.
- Group's turnover and other revenues for the year under review increased by Rs 137M to reach Rs 1,726M. This was mainly attributable to the activities of the Agriculture cluster whose revenues increased by Rs 123M to reach Rs 911M on account of the poultry activities with a full year of operation compared to six months in the preceding year and the milling operations that booked in higher electricity and sugar revenues but a lower refining premium, pending the amount receivable being determined by the relevant authorities. Foodcrops and landscaping activities also contributed to the higher turnover realised.
- Revenues from the leisure activities amounted to Rs 542M, Rs 16M lower than in the preceding year. Casela's turnover dropped by Rs 26m mainly with the temporary closure of some activities that impacted on the number of visitors during the year under review. The hotel and golf operations showed improved performance with higher occupancy and average room rates achieved by the hotel.
- Revenues of the property cluster increased with higher rental and other income realised with respect to its growing investment property portfolio.
- The Group's results realised a profit of Rs 62M (2016: Rs 629M). This year's results included a fair value gain on investment properties of Rs 53M (2016: Rs 606M). The property cluster generated a profit of Rs 251M (excluding inv Property fair value gain) compared to Rs 201M last year with higher profit realised on sale of land and from property rental and other related operations.
- The agriculture related activities recorded a loss of Rs 117M (2016: Rs 73M). The loss was mainly attributable to the set back in the results of the milling operation, for a second consecutive year, with a loss of Rs 81M (2016: Rs 87M) on account of the drop in the tonnage of canes and the lower refining premium booked in as mentioned above. The results of the cluster were also affected by a fair value charge of Rs 40M based on the expected lower cane tonnage and sugar prices for

Crop 2017 while the preceding year benefited from a fair value gain of Rs 50M.

The leisure activities generated a profit of Rs 16M that was Rs 9M lower than in the preceding year. It was attributable to the performance of the Casela activities and was partly compensated by the improved results of the hotel and golf operations.

5. Revaluation surplus on sale of land amounted to Rs 63.6M (2016: Rs 34.2M) and has been transferred from revaluation reserve to retained earnings.

6. In June 2016, a land valuation exercise was carried out by an independent valuer and the increase in the value of land property amounting to Rs 7.1 billion was booked in and credited to the revaluation reserves.

7. An interim dividend of Re. 0.90 and a final dividend of Re 1.20 per ordinary share totalling Rs. 220M (2016: Re. 1.60 /Rs 168M) were declared during the year under review. These were paid on the 15th of February and the 15th of September 2017 respectively.

8. The condensed financial statements have been audited by Messrs BDO & Co, Chartered Accountants.
